THE JOURNAL OF PROGRAMED INSTRUCTION

INDEX
To
VOLUME I*
1962
and
VOLUME II
1963

Lincoln F. Hanson, Editor

The Center for Programed Instruction

at the

INSTITUTE OF EDUCATIONAL TECHNOLOGY

EDITORIAL BOARD

JOHN A. BARLOW
Emory University
Atlanta, Georgia

DONALD A. COOK
Basic Systems, Inc.
New York City

LEWIS D. EIGEN
The Center for Programed Instruction
Inc., New York City

J. BERNARD EVERETT
Newton Schools
Newton, Massachusetts

JAMES G. HOLLAND
Harvard University
Cambridge, Massachusetts

DAVID J. KLAUS
American Institute for Research
Pittsburgh, Pennsylvania

ERNEST Z. ROTHKOPF
Bell Telephone Laboratories
Murray Hill, New Jersey

LEONARD C. SILVERN
Northrop Corp., Norair Division
Hawthorne, California

PUBLISHED QUARTERLY BY
The Center for Programed Instruction
at the
Institute of Educational Technology
Teachers College, Columbia University

* Note: Volume I, Number 1, WINTER 1962, was the only issue in this volume. All subsequent volumes begin with the calendar year.

INDEX

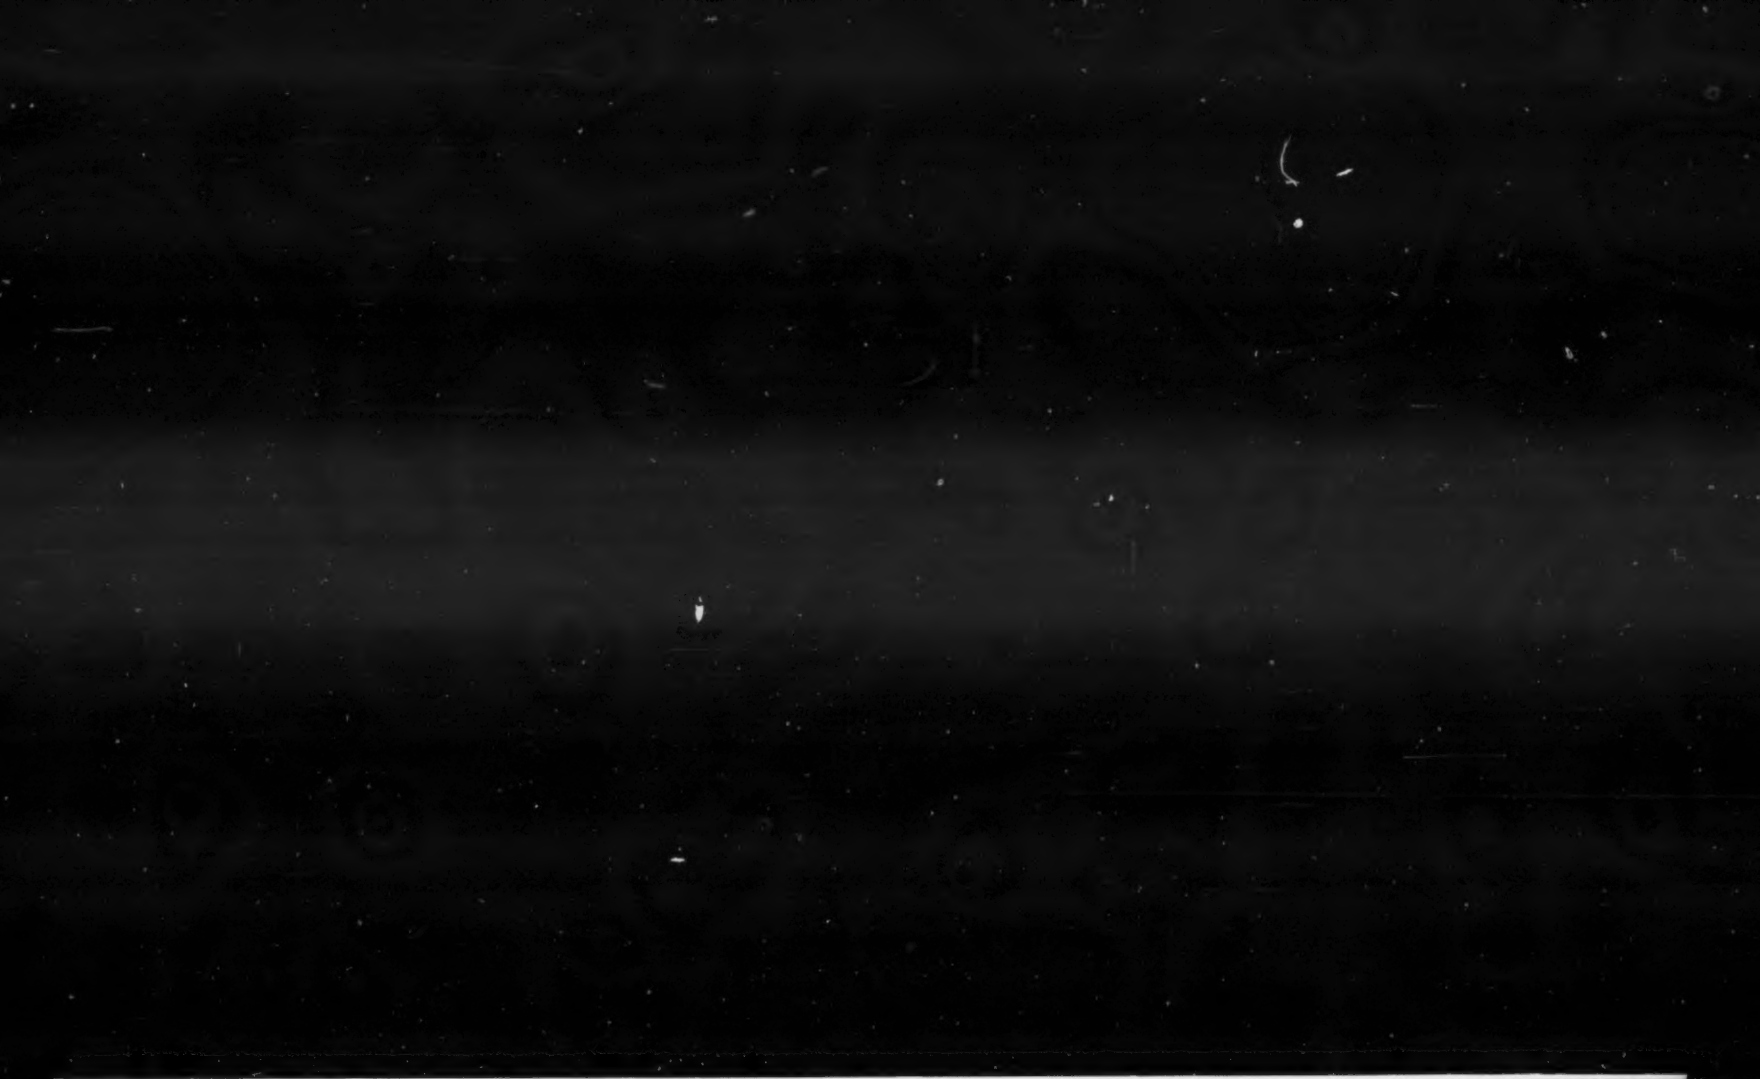
Contributors Index

Alter, Millicent I, 1, 55; II, 2, 7.
Baker, James D. II, 1, 19.
Carroll, John B. II, 4, 5.
Cartier, Francis II, 4. '3.
Cramer, Henry II, 4, 45.
Dick, Walter II, 3, 17.
Edwards, Allan E. II, 1, 25.
Eigety, Lewis D. II, 1, 45.
Filby, Yasuko II, 1, 25.
Gets, George L. II, 1, 15.
Goldstein, Leo S. I, 1, 29.
Gotkin, Lassar G. I, 1, 29.
Hahn, Clifford P. II, 1, 35.
Hanson, L.F. (editorials) I, 1, 5; II, 2, 4; II, 3, 5, II, 4, 3.
Holz, William C. II, 3, 31.
Hughes, John L. I, 1, 37.
Jacobs, Paul, I. II, 2, 21.
Joint Committee Report II, 1, 57.
Kaufman, Roger A. II, 4, 21.
Knapp, Stephan II, 1, 15.
Lysaught, Jerome P. II, 3, 35.
Margulies, Stuart II, 1, 45.
Markle, Susan Meyer (editorial) II, 1, 6.
McNeil, John D. I, 1, 37.
Naumann, Theodor F. I, 1, 9.
Robinson, John S. II, 3, 31.
Rothkopf, Ernst A. I, 1, 19; II, 2, 19, II, 4, 45.
Rothstein, Emil II, 4,
Schaefer, Halmuth H. II, 3, 9.
Sherman, Lewis J. II, 4, 45
Silverman, Robert I, 1, 55.
Slucki, Henry II, 1, 55.
Snelbecker, Glen E., II, 4, 45.
Tobias, Sigmund II, 1, 9; II, 3, 25.
Trittipoe, Theresa G. II, 1, 35.
Trittipoe, William J. II, 1, 35.
Weiner, Max II, 1, 9.
Welch, Donald T. II, 4, 1.

Subject Matter Index

Ability level: I, 1, 37; II, 2, 7; II, 3, 17; II, 3, 35.
  lang., II, 4, 7.
Ambiguous items: II, 2, 21.
Amsel on item difficulty: II, 2, 21.
Analytic ability in programers: II, 3, 33.
Aphasics: p.i. for, II, 1, 25.
Aptitude: see ability level.
Apparatus: winding key, II, 1, 55.
Attention: as purpose of response I, 1, 55.
Attitudes:
  and its programing I, 1, 9.
  to reading, with oral p.i., I, 1, 1 and I, 1, 37.
  response mode, II, 1, 9 and I, 1, 43.
  and classroom time, I, 1, 43.
  and non-functional branching, II, 1, 15.
  of teachers to p.i., II, 3, 25.
  and retention, II, 3, 17.
  AFROTC cadets, II, 4, 13.
Auditory: see presentation mode.
Avoidance of frames: as reinforcer, II, 1, 15.
Branching:
  non-functional in linear programs, II, 1, 15.
  optional, II, 2, 21.
  remedial, II, 4, 21.
Cheating: I, 1, 29; I, 1, 37; I, 1, 43; II, 3, 30.
College students: I, 1, 9; I, 1, 29; I, 1, 55; II, 1, 9; II, 3, 9; II, 4, 13.
Comprehension: reading, I, 1, 37.
Crowder: on item difficulty, II, 2, 21.
Confirmation:
  as reinforcement, I, 1, 55.
  as level of response cueing, II, 1, 35.
Constructed response:
  with other responses, II, 4, 13.
Control group qualifications: I, 1, 55.
Correct responding:
  and achievement, I, 1, 43.
  and time to completion, I, 1, 43.
  vs. spoken, written, and nonrep and posttest performance, I, 1, 55.
  vs. overt, none, and recall, II, 2, 9.
  vs. overt and information level, II, 2, 45.
Criterion Score: see program performance.
Cueing:
  3 levels of, II, 1, 35.
  remedial, II, 4, 21.
  location of prompts II, 4, 37.
Curriculum planning: II, 1, 57.

Devices for presentation:
attitudes toward, II, 3, 25.
winding key, II, 1, 55.
Discrimination of form: II, 1, 25.
Economics of PI: reusable vs. expendable booklets, II, 4, 13.
Educators:
attitude to p.i. devices, II, 3, 25.
rating of p.i. eff., II, 2, 19.
Effectiveness: see retention, posttest performance, evaluation methods.
Elementary school students: I, 1, 29; II, 1, 35; II, 1, 45; II, 2, 7; II, 4, 21.
Equipment:
winding key, II, 1, 55.
Error:
occasional or graduated, I, 1, 37.
function of, I, 1, 21.
Error rate, frame:
and frame style, II, 1, 35.
discussion of, II, 2, 21; II, 4, 7.
Error rate, program:
for sets in H.S. program, I, 1, 9.
and media, II, 3, 30.
for N.P. patients, II, 4, 31.
Evaluation methods:
index, I, 1, 9.
types of test, I, 1, 55.
of general effectiveness, II, 1, 57.
simple inspection, II, 2, 19.
of item difficulty, II, 2, 21.
of program quality, II, 3, 33.
Feedback:
as purpose of response, I, 1, 55.
and item difficulty, II, 2, 21.
Foreign language program: II, 3, 9.
Format:
novelty in for young children, I, 1, 37.
Form discrimination: II, 1, 25.
Frame (style):
for reading, I, 1, 37.
prompting, conversational chaining, conf., II, 1, 35.
German program: II, 3, 9.
Grade level:
and frame style, II, 1, 35.
Guthrie's contiguity principle: II, 2, 21.
High school students: I, 1, 29.
Holland-Skinner program: I, 1, 9.
Homework:
PI as, II, 4, 13.
Identification:
reading, I, 1, 37.
Incidental response:
and information level, II, 1, 45.
Index:
program evaluation, I, 1, 9.
Individual differences: II, 4, 7.
Industrial trainees: I, 1, 43.
Information level:
response characteristics as a function of, II, 1, 45.
Information theory: II, 3, 9.
Inspection behavior: II, 4, 37.
IQ:
and oral presentation of reading, I, 1, 37.
and retention, II, 2, 7.
and programing, II, 3, 33.
Intrinsic program: II, 4, 21.
Introversion:
and programing ability, II, 3, 33.
Irrelevant response:
and information level, II, 1, 45.
Item difficulty: II, 2, 21. See also *error rate, frame.*
Item order: II, 2, 21.
Kindergarten children: I, 1, 37.
Language program:
German, II, 3, 9 (redundancy).
Chinese, II, 4, 7.
Arabic, II, 4, 7.
Latency, II, 2, 21. See also *response latency.*
Learning, model for: II, 4, 37.
Linear programs: I, 1, 9; I, 1, 19; I, 1, 29; I, 1, 37; I, 1, 43; I, 1, 55; II, 1, 9; II, 4, 13.
non functional branching in, II, 1, 15.
Machines: see *teaching machines.*
Mastery: see *program performance.*
Media:
attitudes towards, II, 3, 25.
Mental patients, II, 1, 25; II, 4, 31.
Military use of PI:
AFROTC cadets, II, 4, 13.
Mnemonic phrases:
compared with both program and unguided study, I, 1, 19.
Motivational effects:
frame format (reading, young children), I, 1, 37.
error rate, II, 2, 21.
paired subjects, II, 3, 17.
AFROTC cadets, II, 4, 13.
See also *attitudes.*
Multiple-choice:
frames, II, 2, 21; II, 4, 13.
tests, I, 1, 55.
Oral presentation:
for reading, I, 1, 37.
Order of items: II, 2, 21.

Overt responding:
and achievement, I, 1, 43.
and time to completion, I, 1, 43.
spoken and written vs. covert and none and posttest performance, I, 1, 55.
vs. covert and none and recall, II, 1, 9; II, 4, 13.
vs. covert, aud. info. level, II, 1, 45.
discussion, II, 3, 17.
Pacing:
forced, I, 1, 37.
external vs. self, II, 1, 55.
Paired subjects: II, 3, 17.
Performance: see *posttest performance*
Posttest performance:
I, 1, 9; I, 1, 29; I, 1, 37; I, 1, 43; I, 1, 5; II, 1, 9; II, 1, 15; II, 1, 35; II, 1, 45; II, 2, 9; II, 3, 9; II, 3, 17; II, 4, 21; II, 4, 31.
and type of test, II, 1, 55.
and media, II, 3, 30.
and presentation mode, I, 1, 29.
Holland-Skinner program, I, 1, 9.
and oral and non-oral reading, I, 1, 37.
and classroom time, I, 1, 43.
and program format, I, 1, 43.
and response mode, I, 1, 43; I, 1, 55; II, 1, 9.
and type of test, I, 1, 55.
and non-functional branching, II, 1, 15.
Predictors:
II, 2, 19.
IQ, II, 4, 7.
Presentation mode:
textbooks vs. teaching machines, I, 1, 29.
auditory (reading) I, 1, 37; (language) II, 4, 7.
interaction with response mode, I, 1, 55.
prompted and unprompted, II, 4, 7.
written sentences, II, 4, 37.
Pretest:
data, II, 4, 13.
Program construction: II, 3, 33.
See *specific variables.*
See also editorial, II, 1, 6 and Editor's Frame, II, 4, 5.
Program effectiveness: see retention, posttest performance, evaluation methods.
Program evaluation index: I, 1, 9.
Program performance:
and non-functional branching, II, 1, 15.
and response mode, II, 1, 9.
Holland-Skinner program, I, 1, 9.
of Aphasics, II, 1, 25.
language, II, 4, 7.
and remedial material available, II, 4, 21.
(See also error rate, etc.)
Programed instruction:
general description, II, 1, 57.
foe paired associates, I, 1, 19.
See also program, response, and subject variables.
Programed textbooks:
vs. teaching machines, I, 1, 29; II, 3, 30.
Programers:
selection of, II, 3, 33.
Programs:
current assessment of, II, 1, 57.
See also program, response, and subject variables.
Prompting:
vs. conversational chaining and conf., II, 1, 35.
thematic, II, 3, 9.
II, 4, 7.
Rate: see *Time*
Reading:
vs. responding, I, 1, 55; II, 1, 9.
Reading instruction:
p.i. as research tool for, I, 1, 37.
Reading level:
and frame style, II, 1, 33.
Reasoning ability:
and achievement, I, 1, 43.
and time to completion, I, 1, 43.
Recall:
in oral reading, I, 1, 37.
and response modes, II, 1, 9.
overt-covert, II, 4, 13.
immediate-delayed, II, 4, 13.
Redundancy: II, 3, 9.
Reinforcement:
nature of, I, 1, 55; II, 1, 15; II 1, 32; II, 3, 9.
function of, I, 1, 55.
Relevant response:
and information level, II, 1, 45.
Remedial:
track, II, 4, 21.
Research tool: II, 4, 37.
for reading, p.i. as, I, 1, 37.
for four expts., II, 1, 19.
for retention parameters, II, 2, 7.
Response mode:
covert vs. overt (written), I, 1, 43.
covert, spoken, and written and nonrequired, I, 1, 55.
covert, written, and nonrequired effect on recall, I, 1, 55.
requirements, II, 4, 37.


Retention:
of paired associates, and learning methods, I, 1, 19.
and response modes, II, 1, 9.
as function of interval, intelligence, and training time, II, 2, 7.
as function of paired and individual use of p.i., II, 3, 17.
Reuse of booklets: see Economics of PI
Rote memory:
methods for, I, 1, 19.
School and College Ability Test Scores: II, 3, 17.
School use of programed instruction: II, 1, 55. (See also specific grades.)
Sex differences:
in programed reading effectiveness, I, 1, 37.
Skinner on item difficulty: II, 2, 21.
Standard resistor color code program: I, 1, 19.
Steps:
numbers of, II, 2, 21.
Stimuli, effective, II, 4, 37.
Subject matter area:
and presentation mode, I, 1, 29.
Subjects: see industrial, school, military, etc.
Task inventory:
programs for, II, 1, 19.
Teaching machines:
vs. programed textbooks, I, 1, 29; II, 3, 30.
winding key for, II, 1, 55.
assessment, II, 1, 59.
attitude towards, II, 3, 25.
with NP patients, II, 4, 31.
Technical trainees: I, 1, 29.
Temporal contiguity, see evaluation methods.
Textbooks:
comp. with p.i., II, 1, 57.
(See also programed textbooks)
Time in class:
and variablility, I, 1, 43.
and attitude, I, 1, 43.
Time out:
after errors for Aphasis, II, 1, 25.
Timer per frame:
for Holland-Skinner program, I, 1, 9.
format, response mode, and classroom time, I, 1, 43.
Time to program completion:
for Holland-Skinner program, I, 1, 9.
and presentation mode, I, 1, 29; II, 4, 21.
and classroom time allotted, I, 1, 43.
and reasoning ability, I, 1, 43; II, 4, 7.
and retention, II, 2, 7; II, 3, 17.
for NP patients, II, 4, 31.
Trainees. See Technical, industrial.
Training time: see time to completion.
Unguided study:
for paired associated, I, 1, 19.
VA hospital patients: II, 4, 37.
Values and programing ability: II, 3, 33.
Variability, group:
and time alloted to program, I, 1, 43.
Vocabulary program: II, 3, 9.
Winding key: II, 1, 55.
Written sentences: II, 4, 32.
